## EDUCATION

**University of Vermont (UVM)**, Burlington, VT

*Bachelor of Science in Computer Science with Minor in Music Business and Technology*

Graduated: May 17, 2026

GPA: 3.06

## SKILLS

- Full-Stack Development: C++, Python
- Web Development: TypeScript (React), HTML, CSS
- Machine Learning: Neural Network Training, Model Evaluation, Agent Implementation
- Design : CAD, SolidWorks, Canva, Photoshop
- Audio: DSP, JUCE, VST, Audio Engineering
- Front-End Development: UI and UX design
- Excellent Written and Verbal Communication
- Project and Team Management

## PROJECTS

### CompChords Web App

*UX Design Independent Study (Spring 2026)*

- Scaling previous personal CLI program project into a full-scale web app where users learn about music theory and composition by creating, dragging, and dropping compatible chords in a mini DAW.
- Developing full tech stack and documentation with a C++ Crow backend, REST API, and JavaScript+React frontend in an AGILE workflow.
- Engaging in qualitative research with real music students to optimize user experience.

### Raspberry Pi Machine Learning Guitar Pedal

*Computer Organization (Fall 2024)*

- Collaborated with a partner to design and build a real-time, neural network-based guitar effects pedal using a Raspberry Pi 4, ElkOS distribution, and JUCE C++ framework.
- Developed a deep learning system to replicate analog pedal sound profiles with low-latency performance.
- Built an integrated system with a physical pedal interface, PyTorch training pipeline, and Wi-Fi-connected desktop control app featuring an intuitive GUI for live parameter tuning.

## INDEPENDENT STUDIES

- **VST (Virtual Studio Technology) Development for Audio DSP (Digital Signal Processing)** - (Spring 2026)
- **Music Education App UX Design** – (Spring 2026)

## COURSES

- **Machine Learning** - (Spring 2026)
- **Secure Distributed Computation** - (Spring 2026)
- **Cyber Security Principles** - (Spring 2026)
- **Software Engineering** - (Fall 2025)
- **Algorithm Design and Analysis** - (Spring 2025)

## PROFESSIONAL EXPERIENCE

**NeuralSeek**, Miami, FL (Remote)

August 2025 – September 2025

*Agent Builder Intern*

- Designed custom use-case AI agent, developed strong foundations in successful AI implementation and ethics, and obtained NeuralSeek Agentic AI Certification levels 1, 2, and 3.
